### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: Claims 1 through 22 of application number 10/039,136 are allowable over the prior art of record in that the computer system comprises a frame; a chassis inserted into and removable out of the frame; an electronic component on the chassis; an evaporator block, having an evaporator block internal volume to which the heat from the electronic component is transferred; a capillary wicking material in the internal volume, a fluid flowing into the internal volume being absorbed by the material, the heat evaporating the fluid so that the fluid leaves the internal volume; and a thermal component mounted to the frame to remain with the frame after removal of the chassis out of the frame, heat transferring from the fluid to the thermal component after the fluid flows out of the evaporator block.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
